

PROJECT RESUMES

Radiopharmaceutical Manufacturing Facility (Canada) - 2014

CLIENT: University of Saskatchewan

PHASE INVOLVEMENT

- Feasibility Study
- Basic Design
- Construction Support
- Validation Supervision

- ▶ Basic Design for FDG Manufacturing Facility
- ▶ Tc99m Manufacturing and PET/CT Suites
- ▶ Detailed Design for Cyclotron bunker

Radiopharmaceutical Manufacturing Facility (Canada) - 2013

CLIENT: University of Alberta

PHASE INVOLVEMENT

- Feasibility Study
- Basic Design
- Construction Support
- Validation Supervision

- ▶ 40,000-ft² Radiopharmaceutical Manufacturing Facility
- ▶ 2,000-ft² Cyclotron Bunker

Radiochemistry and FDG Production (Canada) - 2009 to 2010

CLIENT: Montreal Neurological Institute – PET Centre

PHASE INVOLVEMENT

- Area Renovation and Validation

- ▶ cGMP/CNSC Regulation Compliance
- ▶ Re-configuration and Validation of Ventilation Supply/Distribution System

Radiochemistry and FDG Production Upgrade (Canada) - 2009

CLIENT: Hamilton Health Sciences Centre

PHASE INVOLVEMENT

- Basis of Design

- ▶ cGMP Compliance
- ▶ Stand-alone Clean Room Validation

Radiopharmaceutical Laboratories (Canada) - 1998 to 2001

CLIENT: Jubilant DraxImage Inc.

PHASE INVOLVEMENT

- Feasibility Study
- Design Supervision
- Construction Support
- Validation Supervision

- ▶ 20,000-ft² high-level Radiopharmaceutical Production Laboratory
